Product Short Name: DM17

Product ID/ SKU: DM17

Short Description: Cardioid Microphone for Toms and Snare Drums with 20Hz-20kHz Frequency Response. Includes RM3 Rim Mount and Microphone Bag.

MAP: \$199

THE DRUM SOUND YOU'RE CHASING

Earthworks' new DM17 tom and snare drum microphone combines industry-redefining Earthworks sound quality with an affordable price point and intuitive design.

WHY DM17

Instant Game-Changing Drum Sound

Found with the biggest names in music and on the biggest stages in the world — Earthworks drum mics are literally game-changing.

DM17 is the easiest, most accessible path to our signature premium sound on snares and toms.

The Best of Both Worlds

DM17's tight cardioid pattern is engineered to provide the premium on-axis detail you'd expect from the best condensers, with superior off-axis rejection that rivals the best dynamic mics.

RM3 Drum Rim Mount

RM3 is a low-profile, tour-quality solution for securely mounting DM17 to the rim of snare drums and toms, eliminating the need for mic stands, and enabling easy setup and intuitive mic placement.

Industry-leading compatibility with a wide variety of metal drum hoop types and suspension mounts.

KEY FEATURES

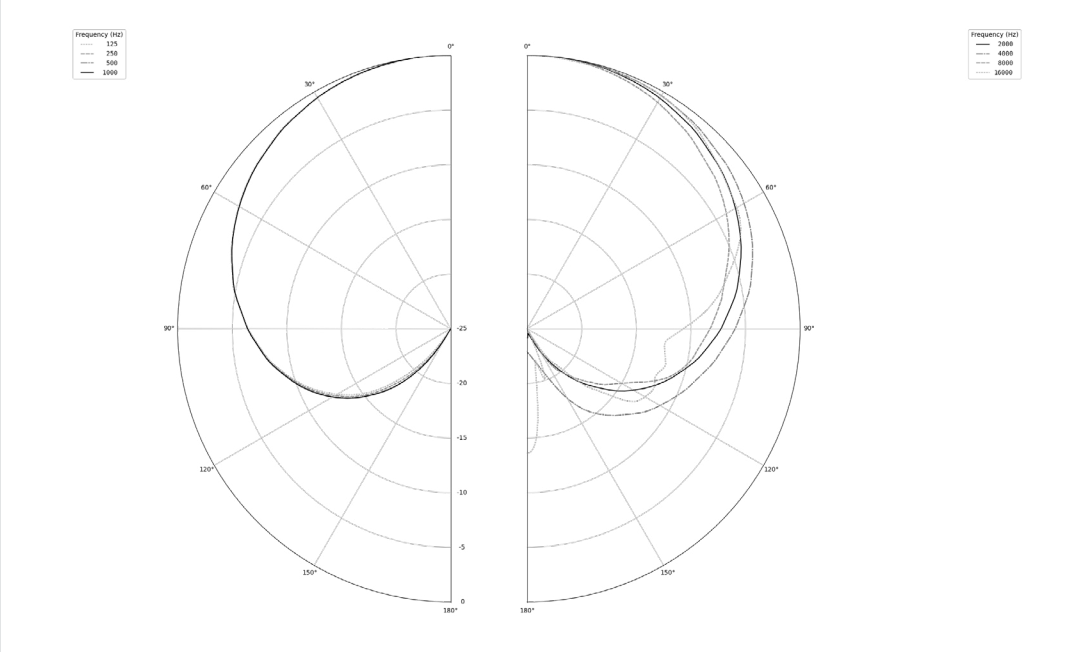

- Built for toms and snare drums
- Designed for live stage performances but works equally well for televised productions, live-streams, worship and studio recordings
- RM3 Rim Mount makes for easy setup
- 155 dBSPL handling prevents clipping from even the loudest drummers
- Designed for very high gain before feedback
- Tight cardioid polar pattern
- Balanced, vibrant and natural sound right out of the box
- Frequency response from 20Hz to 20kHz
- Designed, tuned, & assembled in the USA
